

Kevin Njogu

AI Trainer & Machine Learning Specialist

✉ Kevinenjogu@gmail.com ☎ +1 (509) 564-0610 📍 310s Woodlawn lane Spokane, WA

PROFESSIONAL SUMMARY

Dedicated and results-driven AI Trainer with over 3 years of experience designing and delivering machine learning training programs. Proven track record of boosting user proficiency by 30% and reducing training time by 20% through innovative, learner-centered approaches. Passionate about bridging the gap between complex AI concepts and practical user engagement.

WORK EXPERIENCE

Senior AI Trainer

Tech Innovations Inc. | January 2024 – Present

- Designed and implemented tailored AI training programs, achieving a 30% increase in user proficiency and satisfaction within six months.
- Led cross-functional workshops on machine learning fundamentals for diverse technical and non-technical audiences.
- Developed comprehensive assessment frameworks to measure learner progress and optimize program content.
- Mentored junior trainers and contributed to the company's internal AI knowledge base.

Junior AI Trainer

Future Tech Solutions | June 2022 – December 2023

- Assisted in the creation of interactive learning modules, improving learner engagement and reducing training time by 20%.
- Collaborated with senior developers to translate complex ML concepts into accessible training content.
- Conducted feedback sessions and iterated on curriculum design based on learner performance data.
- Supported onboarding of new team members through structured peer-learning initiatives.

SKILLS & EXPERTISE

Core Competencies

- Machine Learning & AI Training
- Program Development & Curriculum Design
- Data Analysis & Performance Metrics

Professional Skills

- User Engagement & Facilitation
- Technical Writing & Documentation
- Mentoring & Knowledge Transfer

EDUCATION

Bachelor of Science in Computer Science

University of Washington | *September 2018 – June 2022*

- Dean's List Honoree – recognized for academic excellence throughout the program
- AI Research Assistant – contributed to ongoing machine learning research projects
- Coding Bootcamp Mentor – guided peers in foundational and advanced programming concepts
- Hackathon Participant – competed in multiple events, developing rapid-prototyping and teamwork skills
